By order of the Governor,

Explanatory Note

(This is not a part of the amendment, but is intended to indicate its general purport.)

Rule 48-K of Kerala Minor Mineral Concession Rules, 1967 provides that any consignment of Minor mineral without a valid cash memorandum shall be considered as illicit and the competent authority or such authorised person may recover the mineral from the person. The Director of Mining and Geology has reported that unauthorised dealing in minor minerals can be prevented to a great extent by stopping and searching the vehicles in which the minerals are transported. For the purpose of evidence to initiate prosecution against the offenders of law, unauthorisedly quarried and transported minor mineral has to be produced before the court, for which the vehicle also has to be seized. The existing rules do not provide for these measures, and hence the amendment.
